

The requirement of Sinclair Broadcasting to have its sixty-plus stations air a propaganda piece -- masking as journalistic news -- is a horrendous misstep in the notion of free press.

I request, that you act on my behalf, as you are regulated to do for every US citizen, and consider your responsibility seriously. We individuals outnumber the few -- and fewer every day -- corporations that wrangle deals of disservice of our right to free press.

Thank you for your time,  
Christina Snavely
